Step 4

DISCUSS STORAGE REQUIREMENTS

Hunter offers targets ranging in size from 29-35 in. wide with a rolled diameter of 3 in., and floor mats from 37-67 in. with a rolled diameter of 4-6 in.

It is recommended to store Ultimate ADAS® targets neatly and safely to avoid damage. If ample storage is not available, consider options from vendors like Uline or others that fit your customer's needs.

AH08198-00
UADAS STORAGE
SOLUTIONS
HANDOUT

See our storage solutions handout for options and ideas including

- ✓ Mobile or permanent storage
- ✓ Permanent storage
- ✓ Tubes and cost-effective storage

Feel free to explore any and all options for creating or customizing storage solutions.

Local source storage example

- ✓ Meets multiple OE requirements
- ✓ Secure, protected and mobility in one
- ✓ Size and color options
- ✓ Add casters for mobile
- ✓ 750 lbs. overall capacity

For Dynamic ADAS calibrations

ADASLINK® SCAN TOOL

Hunter's ADASLink® scan tool enables technicians to quickly perform and document steering system resets after an alignment as well as easily fit dynamic ADAS calibrations and test drives into your service offerings. The scan tool also seamlessly integrates with Hunter aligners for faster work and improved documentation.

PRE- and POST-SCAN: Get a comprehensive look at installed systems and associated codes.

SPECIALTY USES: Code/pair new parts to the vehicle after installation, such as electric power steering components.

BRAKE SERVICE: Service electric parking brakes and perform other brake diagnostics, including ABS.

FULL DIAGNOSTIC CAPABILITIES:

Review diagnostic trouble codes and other vehicle information

SECURE GATEWAY COVERAGE:

FCA coverage for secure gateway vehicles, with supplemental coverage to other tools in your shop.

POST-COLLISION CALIBRATIONS:

Follow guided processes to calibrate required systems after a collision.

Integration with Hunter wheel alignment software will:

- ✓ Simplified, integrated process for steering system reset
- ✓ Integrate ADAS and pre/post scan steps
- ✓ Streamline vehicle and ADAS procedure selection
- ✓ Combine alignment, scan, and ADAS calibration results using HunterNet®

ADASLink® available in North America only.

PLUS OLDER MODELS

Unlock the full value of your Hunter equipment

HUNTERNET® 2 CUSTOMER PORTAL

Hunter's online customer portal is a revolutionary connected shop solution that helps managers get insights into the health of their equipment and useful tools for technicians to serve their customers more effectively.

Maximize your revenue

Monitor new revenue as your tire services grow. Envision potential revenue if all your equipment were fully utilized.

VEHICLE INSPECTION

Give service writer the tools they need to sell alignments and tires on automatically inspected vehicles.

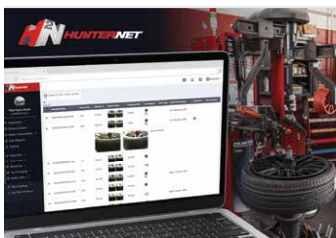

WHEEL ALIGNMENT

With connected Hunter aligners recall past alignment results and send them to your customer or insurance company.

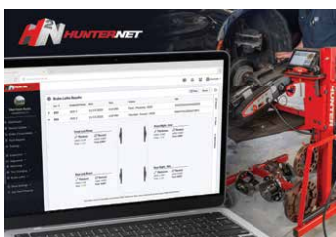

WHEEL BALANCING

With connected Hunter balancers every balance result, including Road Force® and weights needed, is retained.

TIRE CHANGING

With connected Hunter tire changers view tire changer results, pressures set, procedures used, before and after photos, and more.

BRAKE SERVICE

With connected Hunter lathes view before and after cut results and monitor lathe usage counts.

REALIZE ROI AS IT HAPPENS

WATCH your equipment earn back your investment

CALCULATE your timeline to increased profitability

TRACK your shop's performance over time

ANALYZE the trends and formulate data-based goals

VISUALIZE your future business

OWNERS**

Hunter's ADAS Coverage Guide

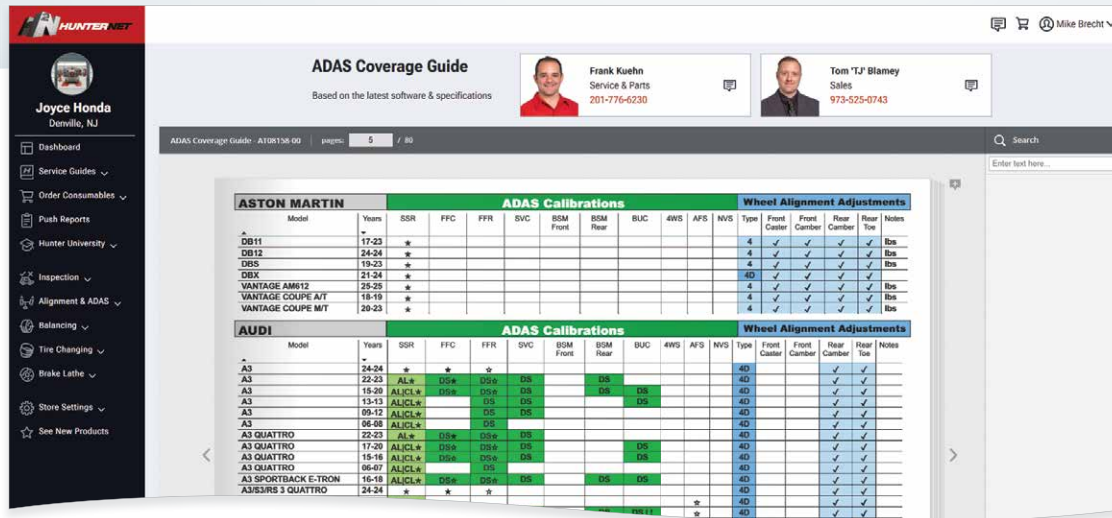

TWO EASY-TO-USE OPTIONS

Service advisors can identify required ADAS calibrations or resets before writing up the work order.

The guide covers hundreds of vehicle models from 2006 through the present. It designates the necessary Hunter ADAS equipment to complete the work. Wheel alignment adjustments and steering system resets are also included.

PRINT EDITION: Easier than keeping multiple windows open, a service advisor nightmare. Easily show vehicle owners needed services.

DIGITAL EDITION: Great user experience plus easy search capability.

**UPDATED
QUARTERLY**

Keep pace with the rapidly evolving ADAS market

Accessible via the HunterNet® 2 online portal, or contact your local Hunter team to obtain a printed version.
